New *Luster®*

Lithium Disilicate Polishers by MEISINGER

Ideal for Today's New Dental Restorations

Luster® for Lithium Disilicate
Extraoral Adjusting and Polishing Kit

This kit features the MEISINGER specially designed polishers for Lithium Disilicate restorations. The 9736G wheel allows for adjustments, and the two-step polishing system will re-glaze the restoration.

Adjusting and Polishing Kit # LUS80

ALL FOUR KITS
rated **"CR Choice"** by Clinicians Report® for best polishing on Lithium Disilicate and Zirconia.

Luster® for Lithium Disilicate
Intraoral Adjusting and Polishing Kit

This kit contains specially formulated diamonds to make adjustments to Lithium Disilicate as well as the two-step polishing system to re-glaze Lithium Disilicate intraorally after the restoration has been placed.

Intraoral Adjusting Kit # LUS100
